

LANCE MALAGA

FRONT-END DEVELOPER

Creative and detail-oriented Front-End Developer with 3+ years of experience building responsive Single Page Applications (SPAs) and mobile apps using React, JavaScript, and CSS3. Proficient in developing scalable web applications and collaborating with cross-functional teams to bring new features to life. Skillful in design integration, debugging, and deploying scalable solutions. Eager to contribute to CMiC's success by enhancing user experiences and supporting the development of industry-focused solutions for the construction sector.

EXPERIENCE

Front-End Developer — BoldStratus, Vancouver, BC

APRIL 2024 - DECEMBER 2024

- Spearheaded a cross-platform mobile application for iOS and Android using Flutter, incorporating advanced Mapbox features to enhance user interaction.
- Implemented modern components through Material Design, improving user interface, accessibility standards, layout, and user interaction.
- Streamlined development processes by automating workflows with custom Python scripts, reducing repetitive tasks and improving project efficiency.
- Implemented AWS solutions, including EC2 instances and S3 buckets, to streamline data storage and ensure scalability.

Front-End Development Tutor — British Columbia Institute of Technology, Burnaby, BC

SEPTEMBER 2023 – MAY 2024

- Facilitated coding workshops and one-on-one sessions to support students in mastering front-end technologies and completing course projects.
- Provided guidance on the best practices in web development, responsive design, and debugging strategies to foster confidence and improved skills.

Front-End Developer — White Cloak Technologies Inc, Manila, Philippines

SEPTEMBER 2020 - JULY 2022

- Contributed to the development of multiple SPAs and successful delivery of over six web and mobile projects using React.js, React Native, and TypeScript, achieving 100% client satisfaction and meeting all deadlines.
- Delivered dynamic content integration with API development for web apps, streamlining information access and boosting user satisfaction.
- Collaborated with stakeholders to develop customized layouts and deploy production-ready solutions using CRM tools.

Technical Support — Linkworks Inc, Indiana, United States

JULY 2020 - MARCH 2021

- Conducted thorough quality assurance testing, identifying and resolving bugs to enhance product stability and performance.
- Utilized C++ to troubleshoot, fix bugs, and develop new features, contributing to the overall stability of the software.
